

2020-Model Arizona International Auto Show Fun Facts

Building the Auto Show...By the Numbers...

It takes almost a week to setup the auto show, but teardown takes less than 48 hours.

The show covers approximately six football fields of exhibit space.

Approximately 65 truck loads of display and exhibit space are unloaded before the show starts.

The auto show uses enough carpet to cover 210 average-sized homes.

About 400 workers build the auto show in 12,000 hours, using:

- 30 miles of carpet tape
- 4,000 square feet of signs
- 11,360 feet of extension cords
- 400 overhead quartz lights
- 400 electrical outlets with enough electricity for nearly 500 homes

What You May Not Know About the Auto Show...

When move-in is complete, nearly 500 brand new vehicles from 30 manufacturers will fill the Phoenix Convention Center.

More than 75 vehicles are available for road tests this year.

Attendees can't buy a car at the auto show; it's a chance to explore and compare nearly 500 vehicles all in one place.
