

This Service & Information Manual contains material which is vital to the successful planning, marketing and management of your display in the Arizona Auto Show. Failure to read this manual and respond promptly in ordering services could result in higher rates.

The services and contractors listed in this manual are for your convenience. Show management suggests that you employ the services of GES, this year's official show contractor, for your greatest efficiency and ease, since they are familiar with the show and work schedule. All independent contractors must coordinate their work schedules with GES and comply with guidelines and insurance requirements.

Please note that insurance policies must provide coverage for all dates from move-in through move-out and must include all required information as is listed in detail in the Important Rules and Requirements section of this manual. Please refer to the sample insurance form enclosed. All insurance policies must be completed correctly. Policies that are not completed correctly will be returned. All exhibit set up contractors must submit a correct and complete policy at least thirty (30) days prior to the first move-in day of the show or they will not be permitted to work in the Phoenix Convention Center.

The most up-to-date exhibitor information, including CAD floor plans and all GES order forms, are available at **www.AutoShowPhoenix.com**.

It is important that you give this manual to those individuals or agents having responsibility for your participation in the show. Show management thanks you for your cooperation and we wish you a most successful Arizona Auto Show!

Move-In Schedule

Carpet Installation, Freight Deliveries & Exhibit Set Up

Due to the move out of another event in Hall 4, the show will have a staggered move in schedule. In order to allot as many straight time hours as possible for exhibit set up, a detailed move-in schedule has been developed. This requires the support and cooperation of exhibitors, freight carriers, and exhibitor appointed contractors for carpet, and or exhibit installation.

NOTICE: Failure to adhere to the timelines designated in the following schedule, or failure to provide an electrical order could result in a 25% off-target surcharge on freight, labor or services.

The display supervisor should be on-site at the start of the freight target time in order to direct crate placement. Labor should be ordered two hours after the beginning of the freight target time. **Please contact show management in advance if additional time is needed.** All crates must be emptied and labeled by 12 Noon Tuesday, Nov. 21 so they can be removed by GES between 12 noon and 12 midnight. Your exhibit area must be ready to receive and place show vehicles on Wednesday, Nov. 22.

All Freight trucks must check in with GES at Tonto & Tenth Streets two hours prior to the start of the targeted freight start time. Directions will be provided from the yard to the appropriate dock or unloading area at the convention center.

Entrance to the docks is via the loading dock ramp located on Washington Street just North of 5th Street.

If the gas level exceeds 1/4 tank or five (5) gallons, the vehicle will not be permitted to enter the building.

Gas Cap Requirements - If the gas cap door can be opened from outside your vehicle, the vehicle must have a locking gas cap. If the gas cap door must be unlocked from inside your car, then a locking gas cap is not necessary, but the standard inside gas cap must be taped.

AC/DC Converters - Cars using AC/DC converters must have the security system fuse disconnected to prevent the public from setting off vehicle alarms.

Show Management will inspect each display area to see that this service is provided, with the cleaning charges being sent to the exhibitor whose vehicles have been neglected.
