

This Service & Information Manual contains material which is vital to the successful planning, marketing and management of your display in the 2018-Model Arizona International Auto Show. Failure to read this manual and respond promptly in ordering services could result in higher rates.

The services and contractors listed in this manual are for your convenience. Show management suggests that you employ the services of GES, this year's official show contractor, for your greatest efficiency and ease, since they are familiar with the show and work schedule. All independent contractors must coordinate their work schedules with GES and comply with guidelines and insurance requirements.

Please note that insurance policies must provide coverage for all dates from move-in through move-out and must include all required information as is listed in detail in the Important Rules and Requirements section of this manual. Please refer to the sample insurance form enclosed. All insurance policies must be completed correctly. Policies that are not completed correctly will be returned. All exhibit set up contractors must submit a correct and complete policy at least thirty (30) days prior to the first move-in day of the show or they will not be permitted to work in the Phoenix Convention Center.

The most up-to-date exhibitor information, including CAD floor plans and all GES order forms, are available for download from the Internet at **www.AutoShowPhoenix.com**.

It is important that you give this manual to those individuals or agents having responsibility for your participation in the show. Motor Trend Auto Shows, LLC thanks you for your cooperation and we wish you a most successful 2018-Model Arizona International Auto Show!

Carpet Installation, Freight Deliveries & Exhibit Set Up

In order to allot as many straight time hours as possible for exhibit set up, a detailed move-in schedule has been developed. This requires the support and cooperation of exhibitors, freight carriers, and exhibitor appointed contractors for carpet, and or exhibit installation.

NOTICE: Failure to adhere to the timelines designated in the following schedule, or failure to provide an electrical order could result in a 25% off-target surcharge on freight, labor or services.

The display supervisor should be on-site at the start of the freight target time in order to direct crate placement. Labor should be ordered two hours after the beginning of the freight target time. **Please contact show management in advance if additional time is needed.** All crates must be emptied and labeled by 12 Noon Tuesday, November 21 so they can be removed by GES between 12 noon and 12 midnight. Your exhibit area must be ready to receive and place show vehicles on Wednesday, November 22.

All Freight trucks must check in with GES at Tonto & Tenth Streets two hours prior to the start of the targeted freight start time. Directions will be provided from the yard to the appropriate dock or unloading area at the convention center.

Important Rules & Requirements

Aisles for Emergency Purposes

The Fire Department requires that all exhibitors leave one foot (1') of space on the center aisle and two feet (2') of space on any border of their exhibit that adjoins another display area. This will allow a four-foot (4') emergency aisle running between each space.

Alcoholic Beverages & Food Items

Alcoholic beverages and/or food may not be brought into the Phoenix Convention Center. Any food deliveries will be turned away at the main entrance by convention center security.

Fire Regulations

Exhibitors must comply with all federal, state, and local fire codes which apply to places of public assembly, in particular, Chapters 5, 8, and 31 of the Life Safety Code. All curtains, buntings, draping, etc., of any kind must be flameproof. Special care should be taken not to block or obstruct any fire hose or fire extinguisher cabinets, fire pull boxes, or entrances and exits within the Phoenix Convention Center.

Vehicle Requirements

Battery Cable - All vehicles displayed in the show must have the positive battery cable disconnected and taped using UL approved plastic electrical tape. A special plastic bag must then be applied and taped. The 4 1/2" x 6" 3 mil. plastic bag with fastener will be provided by security officers as the vehicles enter the building.

Gas Tank Level - Vehicle gas tank level cannot exceed 1/4 tank or five (5) gallons, whichever is less. All vehicles will be checked as they enter the Convention center to make sure that the gas level requirement is correct. If the gas level exceeds 1/4 tank or five (5) gallons, the vehicle will not be permitted to enter the building.

Gas Cap Requirements - If the gas cap door can be opened from outside your vehicle, the vehicle must have a locking gas cap. If the gas cap door must be unlocked from inside your car, then a locking gas cap is not necessary, but the standard inside gas cap must be taped.

AC/DC Converters - Cars using AC/DC converters must have the security system fuse disconnected to prevent the public from setting off vehicle alarms.

Vehicle Access & Cleaning – All show vehicles, except factory display models must be unlocked during public show hours. All vehicles must be waxed or wiped daily. The Auto Show Committee and/or Show Management will inspect each display area to see that this service is provided, with the cleaning charges being sent to the exhibitor whose vehicles have been neglected.

Any hanging signs must be framed and pre-approved by show management. Truss lighting is permitted. AV Concepts has jurisdiction on all installation work. Please refer to rigging form for details.

Signs cannot block the view of other exhibitors. Plastic letters, shoe polish, and homemade signs may not be used on any vehicles or in any area of your display or booth. Decorations, signs, banners, etc., may not be taped, tacked, stapled, or otherwise fastened to ceilings, walls, doors, painted surfaces or columns.
